

Mirazon Supports Long-Term Technology Growth for Catholic School System

Mirazon provides Sacred Heart Schools with comprehensive IT support, helping the organization scale and evolve its technology environment over a decades-long partnership. From infrastructure deployment to ongoing support, Mirazon has played a critical role in enabling reliable operations, stronger security, and confident technology adoption across campus.

Client	Sacred Heart Schools
Location	Louisville, KY
Employees	201-500
Engagement	Jan 2000 - Ongoing
Services	Managed IT, Cybersecurity, Infrastructure

The Situation

Sacred Heart Schools is a Catholic educational community offering preschool through high school education, along with arts programs. With a strong focus on academic excellence, character development, and spiritual growth, the school serves a diverse population of students and staff.

As the organization continued to grow, it needed a trusted partner to support its evolving technology environment and ensure systems remained reliable, secure, and aligned with the needs of an educational institution.

With these challenges in mind, Sacred Heart Schools partnered with Mirazon to:

- Support ongoing technology needs across the campus
- Improve reliability and usability of systems for staff and students
- Strengthen infrastructure, data protection, and cybersecurity
- Provide expert guidance and long-term strategic support

"Mirazon understands our needs in the education space. They don't push us toward solutions we don't need and are honest when something isn't the right fit. The team is always finding better ways to do things, and over the years, we've been very appreciative of our partnership and everything we've accomplished together."

Joe Reed | SACRED HEART SCHOOLS

The Solution

End-to-end IT support: Mirazon provides comprehensive support across Sacred Heart's environment—from hardware acquisition and licensing to installation and ongoing maintenance.

Infrastructure & systems implementation: Mirazon has deployed and maintained servers, data center solutions, SAN and NAS storage, firewalls, and networking equipment to create a reliable, scalable foundation.

Microsoft licensing & platform support: Ongoing licensing management and platform support ensure faculty and staff have consistent access to the tools they need.

Security & data protection: Mirazon supports cybersecurity initiatives and helps ensure systems are configured to protect sensitive data across the school's operations.

Strategic partnership & expertise: With access to a deep bench of specialists, Sacred Heart benefits from a long-term, values-aligned partnership where the right expertise is always available when needed.

The Results

Reliable Operations & Fewer Disruptions

Technology across campus runs consistently and reliably, reducing interruptions to day-to-day activities. Instead of reacting to issues, the environment is stable and predictable, allowing teaching, learning, and daily operations to continue without disruption.

Increased Confidence & Adoption

Teachers, staff, and students have become more comfortable and confident using technology in their daily work. This growing trust has led to stronger adoption of tools across the campus, enabling a more seamless and integrated approach to learning, collaboration, and communication.

Stronger Partnership & Strategic Support

Mirazon's proactive approach and understanding of the education space have created a dependable long-term partnership. By regularly identifying opportunities to help and proactively addressing pain points, Mirazon continues to strengthen Sacred Heart's technology environment and support ongoing growth.
